Endpoint Education Upgrade

We're launching Endpoint Education Upgrade to **help schools manage Android and iOS devices** in their fleet. Endpoint Education Upgrade provides advanced account and device management controls to help keep school data more secure.

These advanced admin and security controls are in Google Workspace for Education Standard and Plus, and include advanced endpoint management. This lets admins control what can be installed on a device, who can log into it, and where it can access data.

Chromebook Plus:
Made for teachers and staff
Designed for ease and security

Flexible devices and features

Whether it's taking notes on a touchscreen device, pre-recording lectures, or booting up in 6 seconds, teachers, IT admins, and school staff can all achieve their goals with Chromebooks.

Supported peripherals

The Works With Chromebook certification program guarantees peripherals are continually tested to meet compatibility standards across all makes of Chromebook devices. Categories include headsets, webcams, mics, external storage, and more.

Virtualization

ChromeOS partners with desktop and app virtualization solutions including **Itopia**, **Parallels**, and **Cameyo**. These partnerships expand what you can do on Chromebooks.

Powerful and secure

Advanced Use Chromebooks support large video calls with 49+ participants, multiple browser tabs, external monitors, apps in virtual environments, and so much more. And with multilayered security, and no reported successful ransomware attacks on ChromeOS ever, Chromebooks are designed to keep user data private and secure.

Features that were made for teachers

Cast moderator

Inspire students to share their ideas on the big screen, while staying in control of who's casting, by using a Chromecast with Google TV HD or 4G.

Screencast

Easily record, share, and view transcribed videos with the Screencast app in ChromeOS, and create a library students can watch from home.

Google Workspace for Education and Classroom

Assign interactive questions for YouTube videos, give students real-time feedback as they move through lessons, and easily monitor performance.

Use **Classroom add-ons** to integrate EdTech tools within Google Classroom. Assign a trivia game from Kahoot!, browse content from IXL's repository by subject or grade level, and more.
