Prepared by SpacePolicyOnline.com. Table reflects latest action by relevant group as of the date shown at the top of this fact sheet. FY = fiscal year. CY = calendar year. Dates are in DD/MM/YR format.

This is not a comprehensive list. It shows selected bills on which action appears likely or otherwise are of special interest. Historical versions of this fact sheet are available on SpacePolicyOnline.com for the [111th](#), [112th](#), [113th](#), [114th](#), [115th](#), and [116th](#) Congresses (the years 2009-2010, 2011-2012, 2013-2014, 2015-2016, 2017-2018, and 2019-2021, respectively).

For an explanation of the difference between an authorization and an appropriation, see our “[What’s a Markup](#)” Fact Sheet.

“**Ord. Rpt.**” means the bill was “ordered reported” from the committee -- the committee approved it and ordered that it be reported to the House or Senate, but the report has not been filed yet, so there is no report number. “**Skld**” – scheduled. **N/A** – no action or not applicable. **NDAA** = National Defense Authorization Act.

* On January 12, 2022, the House Rules Committee approved a new version of H.R. 5746 that eliminated all the original text relating to NASA and replaced it with the Freedom to Vote: John R. Lewis Act. Only the bill number remained. The step was taken because legislative rules allow a bill that passed the House, then amended by the Senate and returned to the House, to again be amended and sent back to the Senate and brought to the Senate floor for debate without allowing a filibuster to derail the bill. House and Senate Democratic leaders were determined to bring voting rights legislation to the floor of the Senate for debate and knew they could not get 60 votes to do that under usual procedures. This NASA-related bill just happened to fit the requirements and pending in the House at that moment. The House passed the amended bill on January 13, returning it to the Senate as the voting rights bill. Since the bill no longer pertains to NASA, further action on H.R. 5746 no longer will be presented in this table. A replacement bill, H.R. 6620, was introduced by Rep. Beyer on February 7, 2022.

** H.R. 6833 is being used as the legislative vehicle for the FY2023 Continuing Resolution that will keep the government funded through December 16, 2022. The bill originally was the Affordable Insulin Now Act.

*** H.R. 2617 is being used as the legislative vehicle for the FY2023 Consolidated Appropriations Bill (the “omnibus”). Originally it was the FY2023 Agriculture appropriations bill.
