The Top Up and Payout Services are part of Stripe Connect

How you can use the Top Up and Payout Services

The Top Up and Payout Services are part of Stripe Connect. Stripe Connect is a suite of products that enables Platforms to accept payments from consumers, top up their Stripe Accounts and payout to various parties, including merchants, vendors and third parties. The Top Up and Payout Services are only available to Platforms with a Stripe Account. This PDS only addresses the Top Up and Payout Services. It does not provide any other information about how Stripe Connect works.

Under the **Top Up Service**, you can add funds to your Stripe Account for future payouts to Connected Accounts. To do this you can initiate a bank transfer from your Australian bank, credit union or building society to a Stripe bank account (details provided separately). You might use the Top Up Service to ensure there are sufficient funds in your Stripe Account to:

- provide customer discounts while still paying full price for goods and services to sellers;
- enable faster payouts (e.g. pay a seller before incoming funds become available).

Under the **Payout Service**, you can direct Stripe to transfer the funds in your Stripe Account (whether or not they are in your Stripe Account as a result of a top up or as a result of other activity using Stripe Connect) to Connected Accounts – these are Stripe Accounts held by merchants who use your Platform or, in some cases, third parties who are not Stripe customers.

The use of the Top Up and Payout Services is subject to applicable laws and regulations.

Our relationship with you

Because the Top Up and Payout Services are part of our Stripe Connect service, unless otherwise agreed, your use of the Top Up and Payout Services is governed by:

1. the Stripe Services Agreement (<https://stripe.com/au/legal/ssa>); and
2. the Stripe Connect Platform Agreement (<https://stripe.com/au/legal/connect>).

Benefits of using Stripe Connect

The Top Up and Payout Services give you the ability to manage your payments centrally from your Stripe Account. Subject to the Stripe Services Agreement and the Stripe Connect Platform Agreement, these benefits are available to you at any time, for example:

- You can use the **Top Up Service** to enable faster payouts, for example, to pay a vendor before incoming funds become available.
- You can use the **Payout Service** where you have received an AUD \$300 payment from a customer to use fitness facilities at 3 different studios that are separate Connected Accounts. In that scenario, you can instruct Stripe to transfer AUD \$100 from your Stripe Account to each Connected Account.

Key Risks

The key risks of using the Top Up and Payout Services include the following:

- **Security.** It is important that you safeguard your Stripe Account details, your API key and any other passwords, equipment or software required for the operation of Stripe Connect. If you do not, then you may be liable for any unauthorised transactions.
- **Service availability.** There is a risk that the electronic network (e.g. our electronic facilities) or the website which enables you to manage Stripe Connect and your Stripe Account may be unavailable for a period of time. This means you may not be able to use the Top Up or Payout Services. We are dependent upon the reliability and operational processes of technology and communications procedure with respect to computer and telecommunications networks. Although we, and our service providers, seek to achieve 100% availability, process and service disruptions may occur periodically.

- **Fees charged by your bank.** When you make a bank transfer to top up your Stripe Account, you may incur fees from your nominated financial institution (including if a transfer is rejected by your financial institution). Stripe does not charge a fee for unsuccessful top ups.
- **Payouts to bank accounts.** We use banks and financial institutions to enable payouts to bank accounts to be effected. There is a risk that the recipient's receipt of funds that you instruct us to pay out may be delayed or stopped by one of these institutions due to factors outside of our control.
- **Our liability.** In some circumstances we may not be liable for losses caused by equipment or systems failure, fraud in payments, or chargebacks (including consequential losses). Our liability for unauthorised transactions and other amounts is limited in accordance with our agreements with you, meaning that you may be liable for them.
- **Counterparty or default risk.** There is a risk that a person with whom we contract in relation to the provision of Stripe Connect (such as card networks or payment methods) may fail to meet their contractual obligations. This means that you may not be able to use the Top Up and Payout Services as designed, and this could result in loss.

Fees

The fees applicable for the use of the Top Up and Payout Services are set out in the **Fees Table** below and are also available on our website: <https://stripe.com/au/connect/pricing>. We will provide you with a paper or electronic copy of this information at no charge on request. We have the right to change these fees, or impose new fees, subject to giving you notice as required by law.

All fees below are payable in Australian dollars. You authorise us to debit these fees from your Stripe Account or settle net as and when those fees become due and payable.

We may vary or defer the payment of fees in accordance with the Stripe Connect Platform Agreement. If any amounts payable in connection with the Top Up and Payout Services represent consideration for a taxable supply then those fees will be taken to be exclusive of GST (unless specified to the contrary below).

Fees Table

Fee	When payable	Amount (exclusive of GST)	
Monthly account fee for Connected Accounts	<p>You are charged fees for the Top Up and Pay Out Services based on the type of your Connected Accounts.</p> <p>If all of your Connected Accounts are set up as Standard Accounts (i.e. a type of account that has more functionality and can disconnect itself from your Platform – usually established online businesses), then there is no monthly account fee for using the Top Up and Payout Services.</p> <p>If some or all of your Connected Accounts are Express or Custom Accounts you will be charged a monthly account fee for each active Express or Custom Account. An account is 'active' in any month if it receives funds from your Platform.</p> <p>The monthly account fee is comprised of a base fee (per active Connected Account) + a monthly volume fee (which is a percentage of the amount of funds sent to a Connected Account's bank account or debit card using the Payout Service).</p> <p>For example, if you have 5 Express Connected Accounts in Australia and the total amount that you paid out to those 5 accounts in a given months was AUD \$20,000, your monthly fee for using the Top Up and Payout Services would be (all in AUD):</p> <p>Base fee of $5 \times \\$2 = \\10</p> <p>Volume fee of $0.25\% \times \\$20,000 = \\50</p> <p>Total monthly fee = \$60</p>	AUD \$2 base fee	0.25% volume fee
Payouts to Connected Accounts' bank accounts	<p>When you make a payment from your Stripe Account to a Connected Account's bank account using the Payout Service, you are charged the following fee.</p>	AUD \$0.25 per payout	

Other important information

No interest

You will not earn any interest or return on the balance of your Stripe Account.

The balance in your Stripe Account reflects funds that are held by Stripe. Stripe earns interest on the funds we hold in a bank account which reflect your Stripe balance.
