

The Metropolitan Water District of Southern California is giving landscapers a free opportunity to build technical skills and help transform lawns into sustainable water-efficient landscapes.

Landscapers in Southern California can now earn two nationally recognized certifications – **Certified Water Managers and Qualified Water Efficient Landscapers** – at the same time through the Water Efficient Landscape Dual Certification Program. This free and unique educational program is developed in partnership with the California Landscape Contractors Association, and is open to all contractors who serve residential or commercial customers in the Metropolitan six county service area.

About the Program

Landscapers will be allowed to earn continuing education units for existing industry certifications. The program includes a series of in-person classes, an audit, and an exam on landscaping fundamentals designed to grow your industry knowledge and skillset. You will learn about where our water comes from and the guidelines for Metropolitan's Turf Replacement Program.

Learn New Landscaping Techniques

- Sustainable Landscaping & Soils
- Landscape Water Budgeting & Water Management
- Irrigation Systems, Scheduling & Controllers
- Irrigation Auditing, Maintenance & Troubleshooting

How You Benefit

- Listed as a landscape professional on the regional Metropolitan **bewaterwise.com** website
- Learn new and advanced industry skills
- Increase your or your company's marketability
- Receive two EPA WaterSense nationally recognized certifications for FREE
