### CAUTION

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

#### Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Avant d'utiliser cette carte, veuillez lire attentivement ce manuel.

### AVERTISSEMENT

Afin de réduire les risques d'incendie ou de décharge électrique, n'exposez pas cet appareil à la pluie ou à l'humidité.

#### AVERTISSEMENT

Par la présente, vous êtes avisé du fait que tout changement ou toute modification ne faisant pas l'objet d'une autorisation expresse dans le présent manuel pourrait annuler votre droit d'utiliser l'appareil.

#### Note:

L'appareil a été testé et est conforme aux exigences d'un appareil numérique de Classe B, conformément à la Partie 15 de la réglementation de la FCC. Ces critères sont conçus pour fournir une protection raisonnable contre les interférences nuisibles dans un environnement résidentiel. L'appareil génère, utilise et peut émettre des fréquences radio; s'il n'est pas installé et utilisé conformément aux instructions, il pourrait provoquer des interférences nuisibles aux communications radio. Cependant, il n'est pas possible de garantir que des interférences ne seront pas provoquées dans certaines conditions particulières. Si l'appareil devait provoquer des interférences nuisibles à la réception radio ou à la télévision, ce qui peut être démontré en allumant et éteignant l'appareil, il est recommandé à l'utilisateur d'essayer de corriger cette situation par l'une ou l'autre des mesures suivantes :

- Réorienter ou déplacer l'antenne réceptrice.
- Augmenter la distance entre l'appareil et le récepteur.
- Brancher l'appareil dans une prise ou sur un circuit différent de celui sur lequel le récepteur est branché.
- Consulter le détaillant ou un technicien expérimenté en radio/téléviseurs.
