The agenda was approved.

### 2. List of Actions

The action list was updated.

### 3. Science Issues

#### 3.1. Review Process – Guidelines

The review process documents are valid for all ISPRS events, and are living documents. As such they will evolve over time, and they can (and for some occasions should) be adapted to individual meetings by local organisers.

They are to be made available to the ISPRS Community via appropriate places in the ISPRS and the Congress websites and the next eBulletin. Prior to doing so, some editing is necessary.

The preparation of an Archives publication of the review process documents, for historical documentation, is to be discussed with Commission V.

**Action 18/1111: Clément Mallet to edit review process documents for publication at an appropriate place on the web and in the next eBulletin, by 30 April 2018**

**Action 18/1112: NP to discuss the preparation of an Archive publication of review process documents with Commission V, by 30 April, 2018**

#### 3.2. Software for the Registration and Reviewing Process for ISPRS Events

ConfTool is to be used as the future registration and reviewing process for ISPRS events whenever possible. To facilitate this use, ISPRS will pay the fees for ConfTool for all ISPRS events as of Janu-

ary 1<sup>st</sup>, 2019. This decision is to be announced adequately in the ISPRS community. Further discussion on whether to include co-sponsored events is necessary.

Due to privacy regulations, the company providing ConfTool is not in a position to build an ISPRS database of attendees for future use. Council agreed to initiate an attendee database itself with respect to GDPR (General Data Protection Regulation (EU) [2016/679](#) rules), beginning January 1<sup>st</sup>, 2019.
