¹ All employed adults in the American Trends Panel were eligible to take this survey. However, for analytical purposes, only those who said they have one job or have multiple jobs but consider one to be their primary job are included in this topline. Those who have multiple jobs and do not consider one to be their primary job or did not provide an answer to the question about how many jobs they have are excluded from this analysis.

² In the 2020 survey, this question was asked of those who said they were "employed full time" or "employed part time" when asked, "Which of the following best describes your current employment situation?" By contrast, in the 2023 survey, this question was asked of those who said they "work full time for pay" or "work part time for pay" when asked, "What is your current work situation?" The only difference between the two is the slight wording change in how employed adults were defined. JOBTYPEMOD was the same in both surveys.

ASK ALL EMPLOYED ADULTS WITH ONE JOB OR A PRIMARY JOB:

³ In the 2020 survey, this question was asked of those who said they were “employed full time” or “employed part time” when asked, “Which of the following best describes your current employment situation?” By contrast, in the 2023 survey, this question was asked of those who said they “work full time for pay” or “work part time for pay” when asked, “What is your current work situation?” In addition to the slight wording change in how employed adults were defined, this question is asked of those working in a company or organization with fewer than 10 employees. For the purposes of this analysis, self-employed adults working in a company with 10 or more employees are counted as having paid employees. In the 2020 survey, EMPLOYEEEMOD was asked of all self-employed adults. Otherwise, EMPLOYEEEMOD was the same in both surveys.
