SAS and Cisco
## Trusted. Powerful. Comprehensive.

We are generating more data than ever before

It comes from the web, billions of phones, sensors, payment systems, cameras, and a huge array of other sources —and its value is tied to its ultimate use.

1.4
zettabytes of IP traffic
expected in 2017[1]

2x
data volume growth
every 3 years[2]

22.9
billion IoT devices
active in 2016[3]

3 barriers to meaningful analytics

Scarcity of analytical skills

Inadequate tools

Access to the right data

Transforming your information into insight

Manage and analyze large volumes of data in minutes or seconds, not days or hours. Cisco UCS delivers the power while approachable analytics from SAS delivers the insight for both business users and modern IT organizations.

Trusted Solutions

Powerful Customer Analytics

Comprehensive IoT Insights

Approachable analytics with SAS®

Web | **Office** | **Mobile**

- Scalable Infrastructure
- Interactive and Visual Reporting
- Intuitive Data Exploration
- Analytical Modeling
