

Essay Text

An elegant serif with a broad palette of typographic goodies.

DESIGNED BY

Ellmer Stefan

YEAR

2014

Essay Text is an elegant serif typeface by Stefan Ellmer with many stylistic alternates and other typographic niceties. It is a highly legible text face that complements the natural flow of reading.

Essay Text is intended for setting books and this is enhanced by a slight slant of the roman, the combination of open and closed apertures, and the amalgamation of organic strokes and counters with a static, fully straight baseline.

Essay Text's regular style looks back to the spirit of the French Renaissance (between the 15th and early 17th centuries), when the Roman typographic letterforms became fully emancipated.

Departing from that historical reference, Essay Text rids itself of all antiquated sentimentality and becomes a contemporary interpretation of that period's archetypes.

Essay Text's italic style refers to that more vaguely, resulting in a formalised look with fairly upright and open shapes and minimal cursiveness. As in the Renaissance before the mating of roman and italic styles, Essay Text's italic works as a distinct textface and a perfect secondary type.

The name *Essay* is derived from the literary meaning of the word: attempt or trial. Therefore, the typeface can be seen as an attempt to express an opinion about reading, the omnipresence of history, the importance of calligraphy and the inevitability of deviating from that calligraphic source, as well as an attempt to crystallise lettershapes in balance between convention and the designer's personal idiom.

Essay Textt comes in two styles, speaks multiple languages, and, along with our entire catalogue, has been optimised for today's varied screen uses.

Les gestes sont la méthode de communication la plus connue, utilisée par diverses espèces dont l'ensemble des primates. C'est également le cas des abeilles et leurs danses : lorsqu'une abeille exploratrice revient vers sa ruche après avoir trouvé une source de nectar, elle peut effectuer une danse en rond indiquant que cette source se situe à moins de 50 mètres, ou une danse en huit indiquant que cette source est plus lointaine. De plus, la vitesse et la durée de ces danses témoignent de

Vědecký obor zabývající se zkoumáním jazyka se nazývá lingvistika. Otázky týkající se filosofie jazyka byly pokládány již ve starověkém Řecku, byly zde otázky typu zda mohou slova reprezentovat zkušenosť nebo motivovanost obsahu slov, konkrétními památkami jsou například Platónovy dialogy Gorgias a Faidros. Ještě časnějším dokladem uvažování o jazyku jsou gramatiky sanskrtu, nejrannější záznamy o kodifikaci liturgického jazyka a uspořádání znaků do abecedy patří do období 8. století

THE DESIGNERS

Ellmer Stefan (1982) grew up in the Austrian alps, was trained in analogue and digital prepress techniques, and studied Graphic Design with a growing tendency towards Type, in Vienna, Arnhem, and Leipzig.

Now based in Oslo, he is working as an independent type designer and lecturer, trying to balance profound historical awareness with a ludic attitude and idiosyncratic necessity.

At the moment Ellmer is deeply fascinated by the typographic lunacies of the 19th century.

Ellmer designed and published Essay Text with TypeTogether in 2014.
