Marco Cyrillic

A lively, humanist family for setting extensive multilingual texts.

DESIGNED BY

Toshi Omagari

YEAR

2015

Inspired by 15th century Italian letterforms, Marco is Toshi Omagari's lively textface with a touch of informality. It stems from Italian humanist typefaces, such as those by Nicolas Jenson and Aldus Manutius which are esteemed for their beauty and ingenuity.

Marco's strong calligraphic disposition makes it an excellent choice for continuous and intensive reading conditions – think of epic poems and complex plays with myriad characters and emphases. Its angled asymmetric serifs along the baseline and slightly flared stems lead the reader's eye up and to the right in the Latin-based languages. This effect propels the reader through sentences and paragraphs for effortless reading.

While Marco has six capable styles, in OpenType programs its italics have an uncommon range available and can therefore be used to emphasise text or as a display style on their own. The italics, from their stem angle to the outstrokes and unique characters, such as 'w' and 'x', were created to show a distinct contrast from the roman styles and to highlight writing speed.

Numerous swashes and stylistic alternates in the italic styles increase the connection to the family tree of calligraphy. With stylistic alternates on, vertical strokes extend further, the dot on the 'i' becomes a jab, and ascenders bend to the right. With swashes activated, capital letters are released from some of their restraints, some leading letters gain a captivating instroke, and trailing characters receive a final flourish.

Marco is full of features required for high-quality book typography, including strong language support in extended Latin, Cyrillic, and polytonic Greek, lining and oldstyle numerals, fractions, ligatures in excess, stylistic alternates to obtain the best possible solutions, a multitude of swashes in the Latin and Cyrillic italic styles, and other typographic niceties. As a result of these elements, Marco is a mature and unique textface where its lively and somewhat informal style is an ideal counterpart to its careful and ingenious crafting.

Vědecký obor zabývající se zkoumáním jazyka se nazývá lingvistika. Otázky týkající se filosofie jazyka byly pokládány již ve starověkém Řecku, byly zde otázky typu zda mohou slova reprezentovat zkušenost nebo motivovanost obsahu slov, konkrétními památkami jsou například Platónovy dialogy Gorgias a Faidros. Ještě časnějším dokladem uvažování o jazyku jsou gramatiky san-skrtu, nejranější záznamy o kodifikaci liturgického jazyka a uspořádání znaků do abecedy patří do období 8. století

THE DESIGNERS

Toshi Omagari is a type designer born in Japan. After graduating from Musashino Art University in Tokyo, he went on to study typeface design at the University of Reading in 2010–2011. Since then, he has been working full-time as a typeface designer in the UK.

He won the 2014 Modern Cyrillic competition with Marco and received the TDC Certificate of Excellence in Type Design 2014 for Metro Nova.

Toshi also translates typographical contents of all kinds of media to Japanese, such as Fred Smeijers's Counterpunch, Doug Wilson's Linotype: the film, and Georg Seifert's font editor Glyphs.

Toshi published Marco in 2014 with TypeTogether.

FAMILY UPGRADES

Buy a single weight (or more) now and get reimbursed if you buy the entire font bundle at a later time. This is a great way to explore a new typeface without full commitment. To take advantage of the upgrade, please email info@type-together.com.

CUSTOM WORK

We offer custom font solutions tailored to your needs. This includes developing new typefaces from scratch, modifying existing typefaces, extending language support, and creating logotypes. Please contact us for details at info@type-together.com.

LICENSING

Our complete font catalogue, along with the presented type family here, are available for print, self-hosted web applications, and app embedding from TypeTogether's online store. For other types of licences and more information, please contact us at info@type-together.com.

TESTING OUR FONTS

TypeTogether actively seeks ongoing dialogue with all type users and therefore offers free temporary licences to test any of our typefaces. The test fonts are fully functional and include the entire character set and OpenType features. To request test fonts, please contact us at info@type-together.com.

EDUCATIONAL & CHARITY DISCOUNT

TypeTogether offers a 25% discount on all typeface purchases for students and those in education (schools, departments, etc.). This discount also extends to NGOs and charities in general. Please contact us for details at info@type-together.com.

For further information, samples, and ordering, please visit www.type-together.com.
