

Pollen

A poetically joyful text typeface
from calligraphic roots.

DESIGNED BY

Eduardo Berliner

YEAR

2011

Eduardo Berliner's Pollen typeface finds a perfect balance between technical excellence, careful design of letterforms for extended reading, and a measured dose of charm and personality. Its informal feel allows for successfully typesetting a wide range of applications, from websites and magazines to fiction books and advertising.

Pollen is the result of mixing traditional and digital processes. Calligraphy, be it done with the broad nib pen, the brush, or other tools, was fundamental in Pollen's development. Its influence is clearly visible in the construction of the top serifs, the curved bottom serifs, and the fluid aspect of terminals and tails such as on 'g' and 'r'.

The shapes of the diagonal letters are based on a less formal calligraphic model, but still use the broad nib pen. The glyphs were then subjected to a further process of pencil drawing and digital reinterpretation to settle their final shape. In Pollen, calligraphy meets regularity; softness melds with vibrant writing speed.

Pollen is equal parts vigorous and sensuous, and the italics only accentuate the speed. The lowercase 'e' and 'c' are derived from one continuous line, and the letters 'g' and 'y' bring informal and charming elements to a typeface intended for long text reading — a trait usually characteristic of casual handwriting rather than serif typefaces. Pollen's wide stance, low stroke contrast, long serifs, and relaxed tracking give the face a mix of confidence and gentility at once.

Pollen perfectly serves the most common typographic needs with a focused palette of its four styles and many OpenType features (small caps, arrows, ornaments, ligatures, info-numerals, fractions, arrows, dingbats, superior letter, stylistic alternates, and much more).

The complete Pollen family, along with our entire catalogue, has been optimised for today's varied screen uses.

Språk eller tungomål är en del av olika system för kommunikation, som används av mänskliga och som vi börjar tillägna stora betydelse redan under våra första levnadsår. Språket kommunickeras exempelvis via talat språk, teckenspråk, kognitioner och skrift, som är bärare av språk i en rad olika kommunikationssystem. Begreppet språk har två nära sammanbundna men ändå separata betydelser; dels syftar det på det mänskliga språket

Vědecký obor zabývající se zkoumáním jazyka se nazývá lingvistika. Otázky týkající se filosofie jazyka byly pokládány již ve starověkém Řecku, byly zde otázky typu zda mohou slova reprezentovat zkušenosť nebo motivovanost obsahu slov, konkrétními památkami jsou například Platónovy dialogy Gorgias a Faidros. Ještě časnějším dokladem uvažování o jazyku jsou gramatiky sanskrtu, nejranější záznamy o kodifikaci liturgického jazyka a uspořádání znaků do abecedy patří do období 8. století

THE DESIGNERS

Eduardo Berliner is a graduate in graphic design from Brazil and obtained his Master of Arts in Type Design from University of Reading, UK. Currently he is working as an independent artist and graphic designer. In 2004, he developed an introductory course in typography for the Catholic University of Rio de Janeiro, which was fully adopted. Eduardo has subsequently worked as a lecturer at the same university. Recently, Eduardo created, in collaboration with designer Cadu, the graphic structure for the newspaper Museumuseu, a project conceived by the Brazilian artist Mabe Bethonico. It was exhibited in the 27th Bienal de São Paulo. Additionally, the first version of Eduardo's typeface Pollen, was shown in the catalogue of the DOBRA exhibition (Brésil, une nouvelle génération de designers — France, 2004). He has also been engaged in the design of motifs for various fashion clothing brands in Brazil.

Eduardo's work has been published in books and magazines worldwide, including Brazil Inspired, Étapes, Type One, Typosphere, and Type Culture.
