Title: Proposal to encode 622 urgently needed ideographs in UCS (Revised)

Authors: Ken Lunde

Status: Individual Contribution

Action: For consideration by UTC and WG 2

Date: 2023-07-05

The original proposal, which was accepted by the Unicode Technical Committee during its 175th meeting as the new **CJK Unified Ideographs Extension I** block in Unicode Version 15.1, included 603 ideographs. This revised proposal includes 622 ideographs, and listed below are the changes that were made.

The Proposal—Unicode Version 15.1

The Unicode Technical Committee accepted the original version of this proposal during its 175th meeting per [Consensus 175-C10](#), and adjustments were made based on feedback received from China on 2023-06-30 ([L2/23-154](#) = WG 2/N5238) per [WG 2 Recommendation M70.03](#) (*Feedback on CJK Extension I*) and SC 2 Resolution M 28-05 (*Feedback on CJK Extension I*). China's feedback is based on the 614-ideograph repertoire of the second draft of the amendment, so the figures are slightly different in the details below:

- **47 ideographs were removed** — Section 2 of China's feedback does *not* include U+A003D 堃, which was also removed, and the following 10 ideographs from the second draft were already removed in the original repertoire of 603 ideographs: U+A0088 徃, U+A008A 街, U+A0131 璿, U+A0135 琢, U+A0174 竝, U+A01AD 蓼, U+A0254 鸞, U+A0258 癸, U+A0272 悤, and U+A0278 譌
- **Three ideographs from the second draft were restored** — China's feedback does *not* mention these ideographs, because they were present in the second draft: U+A002D 煠, U+A0059 嫻, and U+A01E2 迂
- **63 ideographs from the first draft were restored** — Section 3 of China's feedback does *not* include U+A0314 羸, which was also restored, and U+A00CE 燁 and U+A00D9 钹 from the first draft were already restored in the original repertoire of 603 ideographs
- **The representative glyphs for two ideographs that were restored from the first draft were changed** — Section 3 of China's feedback explicitly mentions these representative glyph changes: U+A02BE 璣 (changed structure of non-radical component) and U+A035C 𠄎 (removed dot from right component)

- **The representative glyphs for two ideographs in the second draft were silently changed** — China’s feedback does *not* explicitly mention these representative glyph changes: U+A0048 魁 (added 厶) and U+A007E 嵐 (added 一); the three representative glyphs that were changed in the original repertoire of 603 ideographs were preserved: U+A0122 晓, U+A01AF 蕤, and U+A027B 镜

The updated code point range is **U+2EBF0..U+2EE5D** (block: U+2EBF0..U+2EE5F). In light of the clear urgency to encode this repertoire of 622 ideographs, I recommend that the UTC accept the updated CJK Unified Ideographs Extension I block for encoding in Unicode Version 15.1.

The Proposal—ISO/IEC 10646:2020 Amendment 2

The UTC recommends that the **CJK Unified Ideographs Extension I** block in **ISO/IEC 10646:2020 Amendment 2** (WG 2/N5235 = L2/23-146) be updated to reflect the repertoire of 622 ideographs with code points **U+2EBF0..U+2EE5D** (block: U+2EBF0..U+2EE5F). The updated code charts can be found on pp 3 through 10, and the updated Proposal Summary Form can be found on pp 11 and 12.

The Attachments

This proposal includes the following files as PDF attachments:

- **CJKUIExtI622-Regular.ttf** — a TrueType font that includes the representative glyphs for all 622 ideographs
- **metadata.txt** — a data file that provides the metadata for all 622 ideographs
- **Unihan.txt** — a data file that provides the *kIRG_GSource*, *kRSUnicode*, and *kTotalStrokes* property values for all 622 ideographs
- **ws2021-1.txt** — a data file that provides mappings to IRG Working Set 2021 serial numbers

That is all.

**ISO/IEC JTC 1/SC 2/WG 2
PROPOSAL SUMMARY FORM TO ACCOMPANY SUBMISSIONS
FOR ADDITIONS TO THE REPERTOIRE OF ISO/IEC 10646¹.**

Please fill all the sections A, B and C below.

Please read Principles and Procedures Document (P & P) from <http://std.dkuug.dk/JTC1/SC2/WG2/docs/principles.html> for guidelines and details before filling this form.

Please ensure you are using the latest Form from <http://std.dkuug.dk/JTC1/SC2/WG2/docs/summaryform.html>.

See also <http://std.dkuug.dk/JTC1/SC2/WG2/docs/roadmaps.html> for latest Roadmaps.

A. Administrative

1. Title:
2. Requester's name:
3. Requester type (Member body/Liaison/Individual contribution):
4. Submission date:
5. Requester's reference (if applicable):
6. Choose one of the following:
- This is a complete proposal:
- (or) More information will be provided later:

B. Technical – General

1. Choose one of the following:
- a. This proposal is for a new script (set of characters):
Proposed name of script:
- b. The proposal is for addition of character(s) to an existing block:
Name of the existing block:
2. Number of characters in proposal:
3. Proposed category (select one from below - see section 2.2 of P&P document):
- | | | | | | |
|---------------------------------------|--------------------------|---|--------------------------|------------------------------------|-------------------------------------|
| A-Contemporary | <input type="checkbox"/> | B.1-Specialized (small collection) | <input type="checkbox"/> | B.2-Specialized (large collection) | <input checked="" type="checkbox"/> |
| C-Major extinct | <input type="checkbox"/> | D-Attested extinct | <input type="checkbox"/> | E-Minor extinct | <input type="checkbox"/> |
| F-Archaic Hieroglyphic or Ideographic | <input type="checkbox"/> | G-Obscure or questionable usage symbols | <input type="checkbox"/> | | |
4. Is a repertoire including character names provided?
- a. If YES, are the names in accordance with the "character naming guidelines" in Annex L of P&P document?
- b. Are the character shapes attached in a legible form suitable for review?
5. Fonts related:
- a. Who will provide the appropriate computerized font to the Project Editor of 10646 for publishing the standard?
- b. Identify the party granting a license for use of the font by the editors (include address, e-mail, ftp-site, etc.):
6. References:
- a. Are references (to other character sets, dictionaries, descriptive texts etc.) provided?
- b. Are published examples of use (such as samples from newspapers, magazines, or other sources) of proposed characters attached?
7. Special encoding issues:
- Does the proposal address other aspects of character data processing (if applicable) such as input, presentation, sorting, searching, indexing, transliteration etc. (if yes please enclose information)?

8. Additional Information:

Submitters are invited to provide any additional information about Properties of the proposed Character(s) or Script that will assist in correct understanding of and correct linguistic processing of the proposed character(s) or script. Examples of such properties are: Casing information, Numeric information, Currency information, Display behaviour information such as line breaks, widths etc., Combining behaviour, Spacing behaviour, Directional behaviour, Default Collation behaviour, relevance in Mark Up contexts, Compatibility equivalence and other Unicode normalization related information. See the Unicode standard at <http://www.unicode.org> for such information on other scripts. Also see Unicode Character Database (<http://www.unicode.org/reports/tr44/>) and associated Unicode Technical Reports for information needed for consideration by the Unicode Technical Committee for inclusion in the Unicode Standard.

¹ Form number: N4502-F (Original 1994-10-14; Revised 1995-01, 1995-04, 1996-04, 1996-08, 1999-03, 2001-05, 2001-09, 2003-11, 2005-01, 2005-09, 2005-10, 2007-03, 2008-05, 2009-11, 2011-03, 2012-01)

C. Technical - Justification

1. Has this proposal for addition of character(s) been submitted before? If YES explain	No
2. Has contact been made to members of the user community (for example: National Body, user groups of the script or characters, other experts, etc.)? If YES, with whom? If YES, available relevant documents:	Yes See proposal See proposal
3. Information on the user community for the proposed characters (for example: size, demographics, information technology use, or publishing use) is included? Reference:	Yes See proposal
4. The context of use for the proposed characters (type of use; common or rare) Reference:	Rare See proposal
5. Are the proposed characters in current use by the user community? If YES, where? Reference:	Yes See proposal
6. After giving due considerations to the principles in the P&P document must the proposed characters be entirely in the BMP? If YES, is a rationale provided? If YES, reference:	No
7. Should the proposed characters be kept together in a contiguous range (rather than being scattered)?	Yes
8. Can any of the proposed characters be considered a presentation form of an existing character or character sequence? If YES, is a rationale for its inclusion provided? If YES, reference:	No
9. Can any of the proposed characters be encoded using a composed character sequence of either existing characters or other proposed characters? If YES, is a rationale for its inclusion provided? If YES, reference:	No
10. Can any of the proposed character(s) be considered to be similar (in appearance or function) to, or could be confused with, an existing character? If YES, is a rationale for its inclusion provided? If YES, reference:	Yes Yes See proposal
11. Does the proposal include use of combining characters and/or use of composite sequences? If YES, is a rationale for such use provided? If YES, reference: Is a list of composite sequences and their corresponding glyph images (graphic symbols) provided? If YES, reference:	No
12. Does the proposal contain characters with any special properties such as control function or similar semantics? If YES, describe in detail (include attachment if necessary)	No
13. Does the proposal contain any Ideographic compatibility characters? If YES, are the equivalent corresponding unified ideographic characters identified? If YES, reference:	No
