

Streamline Campus Communication

With Manager's Comprehensive Remote Broadcasting Solution

To optimize campus communication, Manager offers a web-based centralized remote device management platform that seamlessly integrates with ViewSonic ViewBoards, presentation displays, and ViewBoard Box paired devices. This opens up new avenues for campus engagement, facilitating the easy broadcast of heartwarming videos during parent visits, sharing examination timetables in hallways, relaying live sports results across classrooms, and creating excitement with vibrant reception event announcements. In essence, it fosters a sense of community while streamlining the administration involved in school-wide communication through simplified device management.

Communicate Efficiently

Multimedia Broadcast

Capture attention and elevate school announcements with Multimedia Broadcasts. It integrates photos, videos, audio, webpages, and livestreams into a variety of multimedia templates, empowering you to instantly push or schedule media for network displays.

Playlist Creation

Create curated multimedia playlists, stored to the Manager platform, for seamless broadcasting across campus devices. The looping feature ensures uninterrupted playback, making it a hassle-free solution for school announcements, events, and entertainment.

CAP Integration

Enhance the safety of your campus with swift, automated delivery of emergency information. Covering severe weather updates to safety alerts, CAP integration provides comprehensive details on severity, location, and recommended actions in the face of crises.
