Information - Vodafone Business Broadband Services

Broadband and Wi-Fi Speeds

Any Vodafone Business Broadband speeds referred to in this Price Plan Guide, the Agreement, on our website or any of our other materials are maximum download speeds. Broadband speeds are dependent on all hardware, computing and other equipment components meeting certain minimum specifications, being fully functional and working at full speed. The range of wireless equipment can vary according to the layout of your business premises. Other factors can also impact internet speeds, such as distance of your business premises from the network exchange, the number of people using the internet, the level of use of the internet and other environmental and technological influences.

Vodafone Broadband Router

We will provide a Vodafone Broadband router to any new Customers who wish to take our Vodafone Business Broadband Service (subject to successful Vodafone Business Broadband Service availability checks and credit checks). The router cannot be used on any other line or any other service provider's broadband as each router is line specific. The router remains the property of Vodafone until the end of the Minimum Period.

Content Controls

Content controls allow you to decide which websites your business End Users can access. At no extra cost, you can protect any device connected to your Vodafone Business Broadband Service via the Vodafone Broadband router. The default setting for content controls for your service is set to off. You can activate and manage content controls for your Business Broadband Service by accessing your account. With Vodafone My Account, you can track your mobile costs and manage your account online at vodafone.co.uk/myvodafone. To find out more, please see the Vodafone Business Broadband User Guide on vodafone.co.uk/businessbroadband, or call us on **0808 003 4515** free from a landline or mobile or on **191** from a Vodafone mobile.

Anti-Virus Software

Our recommended anti-virus software is F-Secure SAFE. For further information, please visit vodafone.co.uk/businessbroadband

Information – Direct Dialed Call Charges

Call Charges are shown in pence per minute, with a charging period determined by the time you are connected to the Network. If the price point is published as price per minute then charging is rounded up to the nearest minute. Fixed fee Charges are not rounded as these are not based on call duration.

Call durations are accurate to the nearest second.

A call connection charge per call applies for non-inclusive calls, unless otherwise stated. (15.8p on Essentials Tariff and 5p on Premium Tariff).

The rates set out below apply when your inclusive usage has been reached, when your Option add-on usage has been reached and also where there is no inclusive all package included.

Inclusive calls are subject to a 60-minute maximum duration per call. Our Standard List Price shall apply if you exceed the 60-minute maximum duration. To continue making inclusive calls simply hang up and redial before the 60 minutes has lapsed.

Please be aware of any manufacturer-specific issues which may affect your call Charges (such as your phone manufacturer). For more information please refer to your device's manufacturer documentation.

Information – Access and Service Charges to 08, 09 and 118 Numbers

Changes to the Way 08, 09 and 118 Calls are Charged

Telephone numbers starting 08, 09 and 118 are called service numbers. From 1 July 2015, Ofcom (the UK communications regulator) changed the way these numbers are charged. These changes are designed to make the cost of calls clearer for you, and were communicated through a campaign called UK Calling (please visit ukcalling.info/for further information). Calls to UK landlines (numbers beginning with 01, 02 and 03) are unaffected and will continue to be inclusive during the published periods within this Price Plan Guide.

Calls to 084, 087, 09 and 118 Numbers

From 1 July 2015, the cost of calling these numbers has split into two parts:

- **The access charge**

This is the cost of connecting your call from a Vodafone Business Phone.

This will be charged at 5p per minute on Premium Tariff and 9.17p per minute on Essentials Tariff.

- **The service charge**

This is the remainder of the cost of the call.

The service charge is decided by the organisation you call, who must communicate it clearly.

For example, if the service charge was 20p per minute, the organisation you are calling might say: “Calls cost 20p per minute, plus your phone company’s access charge”.

By adding together our standard access charge and the service charge, you’ll know exactly how much each call will cost.

0800 and 0808 Numbers

Numbers starting 0800 or 0808 will remain free from landlines and also mobile.
